Re: Response to Section Comments  
Site Hydrogeologic Report  
White Oak Subtitle D Landfill, Haywood County, North Carolina  
MESCO Project No. G98010.5

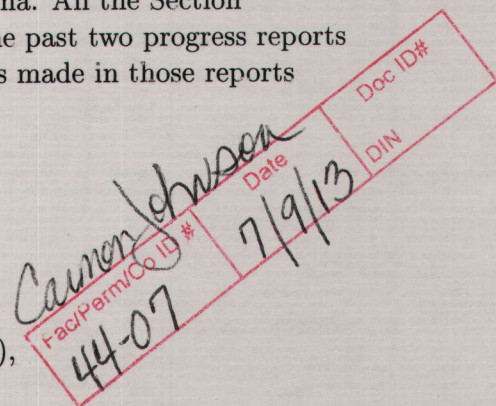

Dear Mr. Gamble:

Enclosed you will find three copies of a revised site hydrogeologic study report for the White Oak Subtitle D Landfill, Haywood County, North Carolina. All the Section questions and comments have been answered or addressed in the past two progress reports dated August 26, 1999 and October 4, 1999. All the discussions made in those reports have been incorporated in the enclosed revised report.

This report includes the following:

1. main text,
2. Plate 1 with the elevations of spring relief drains,
3. Tables 1 through 4 and Chart 1 (the entire tables section),
4. boring logs for P-2, B-8, P-11, P-12, P-16 and P2-1,
5. six revised tables and slug test data for P-13 comprising Appendix B, and
6. the entire Appendix D.

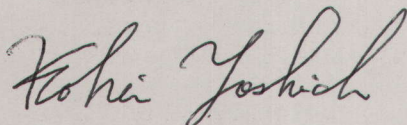

The slug test data for P-13 is included since changes have been made after the last revision. It was discovered that the line initially drawn was slightly misplaced, and a line that best represents the local aquifer property was drawn. This made a slight change in its K value.

Plate 8 has been incorporated into Plate 1, and is no longer a part of the report. Please discard Plate 8.

Please give me a call if you have any questions and comments.

Sincerely,  
MUNICIPAL ENGINEERING SERVICES CO., P.A.

A handwritten signature in cursive script, reading "Kohei Yoshida". The signature is written in dark ink and is positioned above the printed name and title.

Kohei Yoshida  
Hydrogeologist

Enclosure: Revised site hydrogeologic study report
